DANIEL OLSSON

AI-enhanced web dev

glajan@gmail.com glajan.com Malmö, Sweden

Web developer with well over a decade of experience, from start-ups to global brands like Sony and ASSA ABLOY. I work AI-first: agentic AI does the heavy lifting while I focus on what to build, why, and how well it is built. Curious, pragmatic and independent, and a team player who enjoys turning ideas into products people love to use.

EXPERIENCE

Consulting web developer and consultant manager

Nion

10/2023 - 10/2026 Malmö, Sweden (Hybrid)

Nion is an IT consulting firm.

- Consulting web developer, including the Bredbandsval.se assignment below.
- Managed 5 of the company's consultants.

Freelancer, Web Developer

glajan

2012 - Present Malmö, Sweden

I build and ship web applications AI-first, with agentic AI: teams of Claude Code agents plan, implement, review and test each change, while I set the direction and own the architecture, the quality and the product decisions. Independent and solution-oriented, and happy to put in the effort needed.

Web developer

Bredbandsval.se

10/2023 - 12/2025 Malmö, Sweden (50% remote)

Bredbandsval.se is a web application for finding broadband subscriptions for households and companies.

- Led the transformation of a legacy frontend stack to a modern architecture using React, NextJS, and TypeScript.
- Redesigned the user interface with TailwindCSS, collaborating closely with third-party Figma designers.
- Implemented robust testing using Cypress and Jest to ensure high-quality deliverables.
- Tech: Next.js, React.js, Typescript/JavaScript, TailwindCSS, Cypress, Jest, HTML, CSS
- Also: Figma, Vercel, AWS (CI), WCAG, git, github Copilot (AI), code review

Web developer

ASSA ABLOY Group

11/2020 - 06/2023 Malmö, Sweden (100% remote)

ASSA ABLOY - The global leader in access solutions

- Transitioned the frontend to new modern platform based on ReactJS and web components working close with UX- and backend teams.
- Tech: ReactJS, JavaScript, TypeScript, HTML, CSS, styled components.
- Also: Figma, Jira, Agile methods, WCAG, git, code review

Teacher, web development

Grit Academy

07/2020 - 11/2020 Malmö, Sweden

Grit Academy is a school teaching 2-year programs (YH-utbildning)

- Led a classroom of 20 students
- Taught students of beginner to advanced level
- Tech: JavaScript, HTML, CSS, ReactJS

Web developer

Prisjakt AB

11/2018 - 06/2019 Malmö

One of the world's best online price and product comparison services.

- Developed the prisjakt.se website (frontend) to a new modern format in ReactJS.
- Tech: ReactJS, graphQL, JavaScript, CSS, HTML, styled components.

MY EVERYDAY TECH

Web development

ReactJS NextJS JavaScript CSS HTML git NextJS Responsive a11y TailwindCSS TypeScript Claude Code Cypress

ACHIEVEMENTS

Ethiopia

Volunteering in the heart of Africa on my own to enable students of a highschool to go on the Internet and build a LAN.

The races

Pushed me through Vätternrundan, Vansbrosimmet, Göteborgvarvet and a few others.

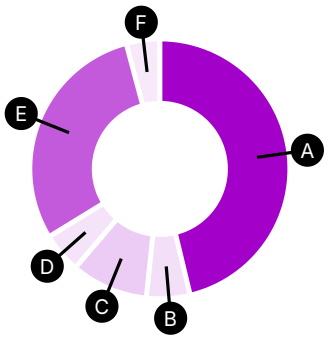

Turkey

Own an apartment in Alanya, Turkey that I run as an apartment hotel.

Housebuild

Designed and built a small house from scratch all on my own. Made everything on my own from excavating to electrical wiring to hammering on my thumbs.

A DAY IN MY LIFE

- A Web development
- B Netflixing
- C Beer, football and friends
- D Travelling or just dreaming of it
- E Chill with/Admire/Love my daughter
- F Build stuff in the kolonistuga / vacation house
